

Amirhossein Najafi

Frontend Developer

Mazandaran, Iran | 09308082375 | Njamir16@gmail.com

PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building web applications using React, JavaScript and modern frontend tools. Experienced in UI development, REST API integration, state management and software testing. Interested in R&D in frontend engineering, continuous learning, and applying modern technologies to build maintainable and user-focused products.

WORK EXPERIENCE

Frontend Developer — Dadeh Negar Eghtesad

Mazandaran, Iran

- Developed and maintained frontend features for web applications.
- Built responsive user interfaces using React and modern JavaScript/TypeScript practices.
- Integrated frontend applications with REST APIs and handled application data flow.
- Worked with Redux for state management and contributed to reusable UI components.
- Participated in frontend testing and debugging to improve application reliability.
- Collaborated with the team to implement product requirements and improve existing features.

EDUCATION

Bachelor of Software Engineering — Noshirvani University of Technology, Babol 2021 – 2025 |

Graduated 2025

TEACHING & ACADEMIC EXPERIENCE

- Teaching Assistant / Course Assistant — Noshirvani University of Technology
- Database — assisted students with course exercises and academic projects.
- Design of Programming Languages — assisted students with course exercises and project work.
- Computer-Aided Digital System Design — academic assistance and project support.
